- interfere with or disrupt any user, host, or network, for example by sending a virus, overloading, flooding, spamming, or mail-bombing any part of the Services;
- access or search the Services by any means other than our publicly supported interfaces (for example, "scraping");
- send unsolicited communications, promotions or advertisements, or spam;
- send altered, deceptive or false source-identifying information, including "spoofing" or "phishing";
- sell the Services or Services accounts via unauthorized channels;
- use automated or other means to create accounts in bulk or to access the Services other than by using our official interface and/or APIs;
