Pd' Programming, Inc. Privacy Policy

Thanks for using Crash Magic! Here we describe how we collect, use and handle your information when you use our websites, software and services ("Services").

What & Why

We collect and use the following information to provide, improve and protect our Services:

Account. We collect, and associate with your account, information like your name, email address, phone number, payment info, and physical address. Some of our services let you access your accounts and your information with other service providers.

Services. When you use our Services, we store, process and transmit your files (including stuff like your data files, photos, and emails) and information related to them (for example, volume or citation data, scanned images).

Usage. We collect information from and about the devices you use to access the Services. This includes things like IP addresses, the type of browser and device you use, the web page you visited before coming to our sites, and identifiers associated with your devices. Your devices (depending on their settings) may also transmit location information to the Services.

Cookies and other technologies. We use technologies like cookies and pixel tags to provide, improve, protect and promote our Services. For example, cookies help us with things like remembering your username for your next visit, understanding how you are interacting with our Services, and improving them based on that information. You must set your browser to accept cookies in order for Services to function properly.

With whom

We may share information as discussed below, but we won't sell it to advertisers or other third-parties.

Other users. Our Services display information like your name and email address to other users in your User Group. Certain features let you make additional information available to other users.

Other applications. You can also give third parties access to your information and account - for example, via Crash Magic SOAP, REST or MagicAuto APIs. Just remember that their use of your information will be governed by their privacy policies and terms.

Law & Order. We may disclose your information to third parties if we determine that such disclosure is reasonably necessary to (a) comply with the law; (b) protect any person from death or serious bodily injury; (c) prevent fraud or abuse of Pd' Programming or our users; or (d) protect Pd' Programming's property rights.

Data storage. We utilize owned and leased servers when hosting our application and databases. We also utilize commercial 3rd party services for backup storage. All Pd' Programming and 3rd party servers are located within the continental United States.

Stewardship of your data is critical to us and a responsibility that we embrace. We believe that our users' data should receive the same legal protections regardless of whether it's stored on our services or on their home computer's hard drive. We'll abide by the following Government Request Principles when receiving, scrutinizing and responding to government requests for our users' data:

- Be transparent,
- Fight blanket requests,
- Protect all users, and
- Provide trusted services.

How

Security. We are dedicated to keeping your information secure and to testing for vulnerabilities. We also continue to work on features to keep your information safe including encryption of files at rest and during transport.

Retention. We'll retain information you store on our Services for as long as we need it to provide you the Services. If you delete your account, we'll also delete this information. But please note: (1) there might be some latency in deleting this information from our servers and back-up storage; and (2) we may retain this information if necessary to comply with our legal obligations, resolve disputes, or enforce our agreements.

Changes

If we are involved in a reorganization, merger, acquisition or sale of our assets, your information may be transferred as part of that deal. We will notify you (for example, via a message to the email address associated with your account) of any such deal and outline your choices in that event.

We may revise this Privacy Policy from time to time, and will post the most current version on our website. If a revision meaningfully reduces your rights, we will notify you.
